## Community of Hope Teams Up with Vector Wealth to Bring Free Estate Planning to our Community

Community of Hope is planning to bring long term systemic change to our homeless and greater community here in Huntsville. We couldn't be more excited to be partnering with Vector Wealth as they too are deeply invested in long term planning for our community and community members. [Find out more >>](#)

Read on to find out about a free event that will be happening twice a year that you can be a part of!

## VectorCARES Mission Statement

The purpose of VectorCARES is to leverage resources as a team to empower our community to restore and build a more fulfilling life. The team at Vector Wealth will use their talents in finance and strategy and frankly playing the long game to help our homeless community and give them the tools they need to prepare for HOME!

## The Importance of Estate Planning

Whether you already have an estate plan or you aren't sure where to start, our Estate Planning seminar will provide you with the knowledge and assurance that your loved ones are not stranded trying to sort through your affairs while also experiencing the sadness that comes with losing a loved one. Our simple estate planning blueprint will help you save time and money while giving you the confidence that there is a plan in place for when that time comes.

Community of Hope is excited to partner with Vector Wealth to host an Estate Planning Seminar on May 4th at 10am and would love you to come!

Whether you have recently updated your own estate plan or not, we invite you to invest one hour with us to hear about the exciting impact the team at Vector is making with Community of Hope to bring a sustainable solution to those who find themselves in homelessness. We are excited about this work and know that you will be too! For more info and to RSVP to the Estate Planning Seminar, click the button below.

## A Peak of What's to Come...

Huntsville Community of Hope is working with Third Lens Ministries, a nonprofit organization which manages the design-build process in order to ensure a successful building project for ministries.

Chapman Sisson Architects has volunteered and donated their design services on this project, greatly lowering design + planning costs. Because of these partners, this project will move forward with the seal of approval from industry professionals, mitigating the risk of financial misuse, serious delays, and permitting issues.

Alongside these industry partners, local churches have provided financial and spiritual support. We recognize we need all of the help we can get, and are blessed to have prayer warriors behind us as well.

If you would like to learn more about how your donations can make a difference, click the button below.
